

Oil Spill Kit 2 Wheel Bin With Hinged Lid

Absorbency : 240 Litter

Description : 120 litres mobile spill kit is the complete response tool for most types of hydrocarbon spills. Oil Only spill kits contain hydrophobic white sorbent pads, sorbent socks and accessories to manage spills effectively. The 2 wheeled bin with lid is easy to move between locations. Spill kits are typically positioned in close proximity to potential risk of spillage. The contents are ergonomically packed to allow for quick and easy application in case of emergency. The bins can be reused and refilled using a dedicated refill kit

Regulations and Compliance:

49 CFR 173.3(c)(2) - The area between a container and a salvage drum used for overpacking must have "sufficient cushioning and absorption material to prevent excessive movement of the damaged package and to eliminate the presence of any free liquid at the time the salvage drum is closed."

40 CFR 263.30(a) - In the event of a spill, transporters must, "take appropriate immediate action to protect human health and the environment."

29 CFR 1910.1450(e) - OSHA requires containment and clean-up materials for spills in laboratories to reduce occupational exposure to hazardous chemicals.

29 CFR 1910.120(j)(1) - Under an OSHA requirement, "DOT-specified salvage drums or containers and suitable quantities of proper absorbents shall be kept available and used in areas where spills, leaks, or ruptures may occur
