

**MAESTROLOTO**

**SKU:MLD16P**

- **CATEGORY:** 6 Hole Multiple Simultaneous Lockout Tagout Velcro Lock
- **Dimension:** Height 100.5 mm x width 61mm
- **Material:** Engineering Plastic Abs + Nylon PA
- **Color:** Yellow/Black
- **Quantity:** Pcs

**Product Features**

- Insulated buckle locks are made of fire-resistant, nylon material and can accommodate up to six padlocks.
- Ideal for locking by multiple workers at each locking point, the snap lock keeps the device from working while repairs or adjustments.
- The controls cannot be opened until the last working safety padlock is

**Product Description**

- The lock body is made of engineering plastic ABS, and the lock beam is made of nylon PA.
- When locking a source, multiple padlocks can be used to lock it.
- 6. Keyhole sliding locking design, available in 3mm and 6mm lock beam diameters.
- It is suitable for places with high requirements for power isolation and locking, corrosive or explosion-proof.
- The four-hole design can be locked for 6 people at the same time, so as to achieve the purpose of multiple people managing the same energy source.

**Product Dimension**

Lock body color	Yellow and black
Lock body size	100.5mm high x 61mm wide
material	Engineering plastic ABS+ nylon PA
Coating/surface treatment	not
Hook diameter	6mm
Maximum usable lock beam diameter	7mm
wrap	Nylon bag + carton packing
Type of risk	Mechanical risk
type	Snap-in type

## Application scenarios.
