

**MAESTROLOTO**

**SKU:MLQ09L**

- **CATEGORY:** Wall Switch Lock
- **TYPE:** Switch Lock
- **Color:** Red & Clear
- **MATERIAL:** Clear High Strength Glass Resin PC Material
- **Quantity:** Pcs

**Product Features**

- Full Shield's Wall Switch Lock Box is made of sturdy glass resin PC to accommodate wall switches commonly used in the market (such as Type 86), Allows locking of 2 safety padlocks, with holes on both sides, and can also lock wall sockets with plugs.

**Product Description**

- Universal wall switch locks are easy to install and work with most wall switches.
- They feature a red high-visibility base with a transparent lid that prevents the wall switch from being plugged into and can be locked in the "on" or "off" position.
- Transparent high-strength glass resin PC material
- It is permanently installed on electrical appliances such as wall switches or transfer switches, and can only be operated by opening the lock to prevent accidental touching
- The design of holes on both sides can also lock the plug on the wall, which is not easy to unplug
- It can also be fixed with automatic screws or 3M double-sided tape

- Wall switch lock box security hole size (length \* width): 137x74mm

### Product Dimension
