

MAESTROLOTO

SKU:MLK08

- **CATEGORY:** Miniature Circuit Breaker Lock Out
- **TYPE:** Breaker Lock
- **Color:** Red
- **MATERIAL:** Reinforced Nylon + Copper
- **Quantity:** Pcs

Product Features

- Full Shield miniature circuit breaker lock is suitable for almost all miniature circuit breakers (including single pole and multi-pole) and small and medium-sized molded case circuit breakers with handle thickness less than or equal to 8mm in the world.
- Made of durable reinforced nylon and copper, it comes with its own locking screws, which can be easily locked by yourself without tools, and the maximum thickness of the locking appliance switch handle is 10mm.

Product Description

How to use the miniature circuit breaker latch:

- The miniature circuit breaker latch quickly and easily locks a single circuit breaker in the closed position without any tools.
- The compact, versatile design is suitable for a wide range of single, double, and tri pole handle circuit breakers.
- Adjustable circuit breaker handle size, ranging 10mm thick.
- Easy to connect without any modifications to the panel or circuit breaker, and no need to make a hole in the circuit breaker handle.
- Rugged nylon and copper construction that provides strength, durability, added safety and corrosion resistance.

Product Dimension

Lock body color	red
Lock body size	Height 45mm X width 25mm X thickness 10mm
Lock body material	Reinforced nylon + copper
Circuit breaker lock type	Unipolar/Multipole (1P/nP)
Circuit breakers are applicable	Miniature circuit breakers, small and medium-sized molded case circuit breakers
Maximum usable lock beam diameter	7mm
wrap	Carton packing
Type of risk	Electrical Risks
